**Ofcourse everyone has the dream of
laying next to your swimming pool
and having huge stacks of \$\$!!**

**And owning cars like a Ferrari 458
Italia, ofcourse you won't achieve this
really fast but with this method you
could start building some nice
amount of \$\$ which you can invest in
trading etc to make even more!**

Enough said, lets start!!

What are we gonna use?

We are going to use social media to make alot of money, social media is the main customer base for EVERY single succesful company! People who think social media is saturated and not a good way to make money anymore are **STUPID!!**

What are we going to sell?

This is 100% your choice! I sold ewhore packs myself, but you could also sell real items etc! I will explain you really fast how!

How is this going to give me profit?

Well, it's all about how you market and advertise your product, in my ebook I will be using ewhore packs as an example but other products will be pretty much the same!

Which social media platform should I use?

This is the trick, gaining Twitter followers is REALLY REALLY hard those days, BUT gaining Instagram followers is not hard at all! I will be telling you how to gain over a thousand real Instagram followers in a day and how to start your Twitter and maybe even Tumblr account!

Start by registering an Instagram account (use a hot girl if you want to sell ewhore packs, use cars if you want to sell books or dvds about cars etc.)

**Did you register it already? Yes?
Alright lets go on!**

So there are alot of tricks on how to get alot of Instagram followers, first of all use populair tags like:

#L4L #F4F #Follow4Follow #Like4Like #Instame #Instacool #Instalike etc, use tags which are related to YOUR Instagram account (cars = #supercar etc, girl = #teen etc)

A good website for populair tags is:

<http://www.tagsforlikes.com/>

As you can see they have a lot of tags in different categories, another way to gain a lot of followers is by liking pictures of people who use tags related to your content, so for example if you're using an explicit Instagram then you are going to like random pictures of #abs, #supercar for cars etc.

Also following people who are interested in this kind of content will give you a lot of follow backs!

The 3rd way is to follow people who have #F4F in their tags and who follow a lot of people but don't have a lot of followers, because those followers are most of the times the guys who DO actually follow you back! Just go follow a random bunch of people in their follower list and you'll see your followers grow really fast!

ALSO! Don't forget to ask people for shoutouts, shoutouts can be really effective and could give you a lot of followers!

MAKE THE PAGE LOOK LEGIT BY POSTING A FEW TIMES/DAY!

Got enough followers? Alright lets start the real business!

Do you think you have got enough followers? Alright lets start by promoting your Twitter/Tumblr page, make a Twitter and Tumblr page and start promoting it through your Instagram, this will gain you alot of followers really fast on all platforms!

Now as soon as you are ready to start selling your product, go setup a page for your product!

Go make an account on www.payhip.com and connect your PayPal etc, then press: "Add new

**ebook” and start making a page, mine looks like
this:**

Nathalee | 900 Pictures | 60 videos | Kik & Snapchat

Hey guys,

I am a 18 year old girl from Cambridge, I am selling my private pictures and videos for only \$30, you'll get videos of me in a gangbang with my classmate, me fingering myself and banging my best friend, the pictures are amateur and not that good in my opinion but I hope you like it.. :\$

Ofcourse use YOUR girl as preview picture, I have set the price at \$40 for the pack.

This is my link: <https://payhip.com/b/GAgt>

I used this as text but it's better to create your own:

Hey guys,

I am an 18 year old girl from Cambridge, I am selling my private pictures and videos for only \$30, you'll get videos of me in a gangbang with my classmate, me fingering myself and banging my best friend, the pictures are amateur and not that good in my opinion but I hope you like it.. :\$

In this pack are +/- 900 pictures and 60 videos, I will also give you my Skype, Kik and Snapchat within this pack so we can keep in contact! :)

Use an ebook about cars for a cars Instagram etc!

Time to change those followers into some \$\$!

Finally our hardwork is going to pay us back!! The next thing we are going to do is start spreading the link through Twitter, Tumblr and Instagram, post it a few times/day and keep using tags which are related to your category!

DON'T post it too much, this will make you look suspicious and will result into having alot of unfollowers, I recommend to keep posting a few normal pictures/day!!

ALSO, if your page has got alot of followers, it could be worth alot of money, if your going to make a new account then you could sell your old one for a good price in the HackForums account section!! :)

**I hope you guys enjoyed the method,

through HackForums PM!**
