Paidverts

What is paidverts ?

PaidVerts is an awesome hybrid between a Paid-To-Click and a Revenue Share program. It was launched on March 31, 2014 by *Joel William Cook*. He is not only an experienced marketer but also he is the proud owner of MyTrafficValue.....

How can we earn money in paidverts and you need To learn to get start earning dollars:

1. Bonus Ad Points (BAP) are essentially your earning potential when it comes to receiving paid Bulk Ads. If you want to received paid ads you need BAPs as each ad is delivered to your account, your BAP balance is reduced by the corresponding amount.
2. The more BAP you have the more ads you will get and the more high valued ads to show. If you have enough BAP that is equal to the value of the ad, you

will have the chance to get that ad and same values of BAP will be deducted in you account balance.

In short If you have let's say 99000 BAP (as an example only) you have a chance to get:

- ▶ 1 x \$52.30 valued ads or
- ▶ 2 x \$27.30 valued ads or
- ▶ 4 x \$13.90 valued ads or more ads ranging \$0.005 - \$7.40 depending on the the amount of BAP balance you have.

Note: For example you have only 1,600 BAP, then your earning potential is limited / capped to receiving ads no greater than \$0.880 in value. So if you only have 1,600 BAP, and there is a \$1.660 or higher paid ad in circulation, you will not be eligible to receive such ad as that would require 1600 more BAP to receive that ad. Therefore maintaining a big BAP balance is key to receiving the highest value ads and earning big at Paidverts.

How To Earn Bonus Ads Points(BAP):

1. Free 500 BAP Points daily ($500 \times \$0.005 = \0.25 value) to all members.

From your members main page (top right side), click on the link to view an account Activation Ad. This will activate your account for 7days (required to receive any ads at all), and it will also add 100 BAP to your account. You can view up to 5 activation ads per server day.

2. Earn 3100 BAP per \$1 spent on advertising either in account balance or from your Payment Processors.

155% return: $3100 \text{ BAP} \times \$0.0005 = \$1.55$; a \$0.55 profit for every \$1 you spent on advertising both from your account or any other available payment processors.

About the BAP: groups

It is depending on how much BAP you have you will have different value and amount of advertisements available to click in your "View Ads" section. For example, on the 18 oct 2014, the first group was earning \$0.08 by clicking their advertisements while for top group it is almost \$200 !!!

The group are those:

BAP Group 1	1600 to 12000
BAP Group 2	12000 to 24000
BAP Group 3	24k to 48k
BAP Group 4	48k to 96k
BAP Group 5	96k to 180k
BAP Group 6	180k to 360k

Everyday at server reset, you will burn BAP (2000 per \$1 value) to receive your advertising to click. Once you have clicked the ads, you will use a part (or all if you want to grow faster) of your earning to repurchase advertising in order to remain in your group. And the 55% remaining is your NET PROFIT

(you can withdraw it !! :D).

Tips to earn more:

1. Accumulate as much BAP as possible. The more you have the higher value ads your account will start to receive. For some perspective, to receive paid ads of \$1+ with any frequency, you're going to need at least 50-100k BAP.

2. Buy Bulk ads. For every \$1 spent, you'll get 50 visits to your website, and 3100 BAP. That will deliver \$1.55 worth of paid ads to your account ASAP:

3. Try buying the \$0.05 recycler pro upgrade from your My Account page. That will deliver \$1 worth of ads to your account very quickly - usually within 72hours.

4. Buy Super User upgrade, to gain priority receiving the 10x 1% value ads that are created each time a new ad campaign is purchased

Some special tips to earn more ..!!!!!!!

1) Keep your account active! Only active accounts receive paid ads. You can view 'activation ads' from your

members main page at any time. Every activation ad you view ads 7days of active status to your account + 100 Bonus Ad Points (BAP)! - View multiple activation ads all at once, to accumulate BAP, and activate your account well in advance. - If your account goes inactive, you can re-activate it at any time. And pick up exactly where you left off! - If you're going on holiday, let your account go inactive! This will save your Bonus Ad Points from being consumed by ads that you don't click on. As remember, you only have 18 hours to click on each ad that's delivered to you, or it'll be recycled and given to somebody else!

2) Refer Friends! Why do all the work, when you can earn when others purchase and click on ads! Just give them your referral link! You'll earn 10% of every ad purchase your friends make, as well as 10% of the value of every click your referrals make! So if they view a \$10 ad, you'll earn \$1 commission for doing absolutely nothing.

3) Bonus Ad Points (BAP) are the key to making loads of money with PaidVerts. These are how we distinguish freebie junk traffic, from the valuable users that

advertisers are interested in communicating with. Read the FAQ to learn how to earn more Bonus Ad Points.

4) Advertise with PaidVerts to increase your BAP! For every dollar spent on our Bulk Ad Packs, you get:

- 50 visits to your website for 30 seconds, after the user has typed out your three main selling points. So they're primed and know what they're looking for even before arriving at your website.

- 100 banner impressions of our 125*125 px banner rotator

- 25 exclusive top of page banner impressions for the 728*90 banners

- And they even throw in 3100 Bonus Ad Points (BAP) for your account!

EVERY \$1 = \$1.55 worth of paid ads that'll be delivered to your account ASAP !!!!

How to earn daily 20\$

You have to be group 8 or 9 to get daily 20\$ value ads ...

So I strongly suggest you to invest at least 100\$ here and then re buy ads to reach in group 8 or 9

As an Investor :

► \$10 investment($10 \times 3100 = 31,000$ BAP) is a good start but the most ideal would be from \$30-\$100 if you want to get your investment back faster and earn more profit in a short time.

► The return of investment is at *155% so the higher your investment the higher the return.

Computation: $\$1 = 3100$ BAP ; 1 BAP = $\$0.0005$; $3100 \times \$0.0005 = \1.55 and that is 155% of your investment.
