creating VCC using Entropay

creating VCC is not free at all, cause it needs some money too to create it, but its very cheap. You need around \$20 for first investment, and with this \$20, you can create several VCC, you can sell it again or using for yourself.

1. How to “load fund” in Entropay?

The first step before creating VCC, make sure you have fund in you entropay account. The fund in entropay can be loaded debit/credit/ATM card(click funding source in member area).

I suggest you use debit card not credit card, so you can manage your money wisely

From that fund, you can create your own VCC. Below is the step for load your money from “funding source”

Step 1

1. Click at “funding source” tab
2. Click “load card”

Step 2

You will be redirected to a page where you can choose which virtual card you want to fill the fund.

1. Choose one of the virtual cards / create a virtual Entropay card.
2. Put how many funds you want to load, minimum is \$20.00 and maximum \$2000.
3. Put your security number (CVV) (debit/credit card)
4. Click next

STEP 3

1. At this page, you will know how much fee you get from entropay for load your fund, usually for \$20.00, you will get \$0.99 fee.
2. Click next

STEP 4

- at this stage, you already load your fund in your virtual entropay card.
- Click Account Home.

- Look at your virtual entropay, (a card that you load your money there)
- Click view to see your balance, so you know how much balance in there.

How to create VCC

I will explain how to create VCC using entropay

STEP 1

- Login in your entropay account.
- Now you are at Home, here you can see your virtual card, click view to see your remaining balance.
- If the balance of card is enough you can click at the card directly.

STEP 2

At this stage, you can see (again) your remaining balance. If it okay, click “Transfer Fund.”

Step 1, select "New Entropay Virtual Card".

Step 2, after you select "New Entropay Virtual Card", then it will appear at new VCC creating

Step 3 You know the currency between USD and your country currency.

Step 4 put how much balance you want to load at your new vcc.

TIPS:

If you want create VCC for verify your paypal, you only need to put \$3.23 USD, it really save your wallet.

Step 5, you can name your new VCC. For me, name is not important.

Step 6, click Next

STEP 4

At this stage, you can see how much fee for your new VCC.

After that, click next

STEP 5

Here, your new VCC is ready for use.

All information about your VCC is in this page.

- No 1, show your VCC number.
- No 2. Show security number (3 digit)
- No 3. Show expired date
- If you already write all information, click Account Home.

Now, you already have 1 VCC, use it wisely

If you don't want to use it, you can select "destroy".

How to see vcc statement

This step is quite important, after you put the VCC data in your paypal account, then paypal will send the 4 code expuse at your VCC statement.

In real world, we need to wait for 1 month to see the 4 digit, but if you use VCC, you only need 3-4 days.

Step 1

The screenshot shows the EntroPay account dashboard. At the top, there is a navigation bar with the EntroPay logo, a 'Logged in as' indicator, and a 'Logout' button. Below the navigation bar are tabs for 'Home', 'Alerts', 'EntroPay Cards', 'Funding Sources', 'Account Settings', and 'Help & Support'. The main content area is titled 'Your EntroPay Account' and is divided into two sections: 'Your EntroPay Cards' and 'Your Funding Sources'.

You can now transfer funds directly between your EntroPay account and your bank account. Try our [Bank Transfer Service](#) today!

Login at your entropay account as usual, click at VCC that you use for verify paypal.

Step 2

EntroPay Virtual Card | include destroyed cards | [Set Default](#)

This EntroPay card is for use anywhere VISA is accepted online. Simply note down the card number, expiry date and security code and enter them at **any online merchant** when prompted.

Important
When you make a purchase, your card will be debited immediately while the transaction is processed across the banking network.
If the purchase is later cancelled or the amount changed, your balance will be corrected.
We take your security seriously. To safeguard your account, we may need to briefly restrict your access whilst we carry out various checks.
