

## How To Create Unlimited US Bank Accounts

Allowing You To Verify PayPal Accounts.

What can I do with this guide? - This guide is used to show an individual how to create multiple US bank accounts. These bank accounts can be used mainly for Verifying only US PayPal accounts.

Can I resell your guide? No, definitely not.

You wouldn't want this guide to be exposed and PayPal will find out just like how PayPal caught a lot of individuals using Netspend.

What are the requirements to becoming successful in this method?

You will need:

- A social security number [doesn't need to be yours, just find a working one, the SSN will only be used once. Hey use this number and just change up the last digits 559-44-3632
- A lot of Netspend accounts [ This shouldn't be a problem. Just create a lot of Netspend accounts or you can just use one for yourself. It's doesn't matter, it's according to how much banks you want created You can download some valid US addresses here [http://uploading.com/files/15f32392/Valid\\_Addresses.txt/](http://uploading.com/files/15f32392/Valid_Addresses.txt/) note: Some addresses are already taken, you can just change the street address last 2 digit numbers.
