What is Sharecash?

[Sharecash](#) is an online host for files you upload. Some common hosts are rapidshare, mediafile, megaupload and many more. [Sharecash](#) however, differs in one aspect; YOU get paid while people download your file. That's it, a very easy tool for us avid online users to earn money.

How does it work?

Every time a person downloads your file; he or she is required to fill in a survey. And every time the survey is filled up by a qualified person, you'll get a specific amount of money; usually (\$0.40 per download).

They offer a very high range of rate per download - at least **40 cents** for any US, UK, CAN, or AUS download. Your international downloads will have to earn at least 25 cents. Keep in mind that the 40 cents earning, only is a base rate. As most downloads you'll earn reaches over 60 cents! **AMAZING ISN'T IT?**

Cashing Out?

\$10 is the MINIMUM amount required for you to cash out. You will also be paid VIA PAYPAL which simply is accessible to everyone all over the globe. The earnings you will earn will be approved every 1st of the month and they will pay you every 15th – 20th.

The Best ShareCash Strategies REVEALED.

1. Make A Website Dedicated for Sharecash like ebookfactory.tk
 - It is an ebook site that offers free downloads with sharecash links.
 - You can use free websites like, .tk, .co.cc or even free blog hosts like wordpress.com and blogger.com
 - Just optimize these sites through twitter, facebook, social media sites and other SEO techniques and you'll earn the maximum CASH YOU NEED.
 - Ebooksdownload is another site you would want to take a look.
2. Youtube. (Use your creativity and modify the idea.)

- Upload music videos from famous and in demand artists. Upload the music/song to sharecash and make sure to put your sharecash link on the description.
- Video Ideas: tv series, music videos, movies, tutorials, and etc.
- One thing though, sharecash is quite strict with copyrighted materials so just rename your file to an untraceable name before uploading to sharecash and you`ll be more than OKAY.

3. Forum Postings. (Use your creativity and modify the idea.)
 - Register to forums that allow links to be posted on threads and signatures.
 - You can search google for this. I`ll share to you a few search strings:
 - o intext:"powered by yabb" +keyword
 - o keyword + "Powered by VBulletin"
 - Look for surefire niches and look for available forums for it.
 - Example: Look for a hair loss forum. Post comments and add your website / ebook link on to your signature. Create real threads and share a video or a free ebook and put the

sharecash link there. If the forums won't allow the sharecash link, then cloak it with url shorteners.

- Money will then easily come to you.

4. PORNOGRAPHY. (Use your creativity and modify the idea.)

- I made this red since Sharecash HATES porn stuffs BUT remember to change the file/video you upload to an untraceable name.
- Download sets of celebrity scandals, pictures, pornography videos and upload them to sharecash. Look for porn forums and post every single link that you have.
- In posting, make sure to use teasing thread titles and insert pictures that will make them salivate and download your link.
- The best tip so far: Make a website exclusive of your sharecash pornography links. Follow or modify the instructions:
 - o Get yourself a domain & hosting or even just a free blog
 - o Look for tubes like youporn, redtube, xtube and etc.
 - o Make sure to copy and embed the videos to your site, downloading them isn't necessary. Just for streaming.
 - o Upload a link on a .txt file on sharecash that points to where the played video can be downloaded.
 - o Insert the sharecash link below the video and watch your money GROW.

5. [Buy Traffic](#). (Use your creativity and modify the idea.)
 - Online you'll find traffic services that offer traffic. Free ones and those that you need to pay but surely give out targeted traffic.
 - I for one buy traffic from [Fulltraffic](#). Availing their 10,000 visitors for only \$15. Yes, this is a gamble but worked best for me. Click [Fulltraffic](#) to go to the site.
 - Let's say, from the 10k traffic you'll have at least half of them downloading your ebook/video or whatsoever.
 - $5,000 \times \$0.40 = \$2,000$ less \$15 investment. You'll have a Net Income of \$1,985 in an instant!

That's basically it.
