

Use TORRENTS To earn money

A Step by Step Guide to
make money with Torrents

By TerminalOne

HF

Introduction

This eBook will teach you how to earn money from torrents. You will not even need to upload/create a torrent for this method. This method can earn you hundreds of dollars a day if done right and maintained. So without further do, lets get cracking to earn some cash.

CPA Networks

Now you're probably thinking "Why do I need to use affiliate marketing in this method?" Well, that is because this will be the way you will get paid, but first you must sign up for a CPA Network so here are some you should consider:

CPAgrip.com -

https://www.cpagrip.com/admin/panels_register.php

This is the best CPA network in my opinion, click on the sign up page, enter your personal info, if you don't have a website use youtube.com and in the publisher type select email or content lock and you will instantly get accepted.

CPAlead.com –

<https://www.cpalead.com/get-started.php>

This is a well known and trusted CPA network, click on the sign up page and enter your personal info. If you don't have a website use youtube.com and you will get instantly accepted. (Same method as above)

CPA Networks

Mgcash.com – Register using your personal info and use the same technique as used in the page before

Adworkmedia.com - <https://www.adworkmedia.com/affiliate-publisher.php>

Excellent CPA network. Click on the sign up page and then click on join, enter your personal info and follow this:

Promotion Style: PPC/PPV

Incentive Traffic: Yes

If you don't have a website do the same as above

How did you hear about us? Google or Blackhatworld.com (They like people from that forum as they earn a lot of money through them)

Current networks: If you never joined a CPA/PPD network, use one of these: CPAaway.com, Adsendmedia.com or Peerfly.com

Promotion Methods:

I am planning to advertise my links and earning lots of money by creating websites, Youtube videos and also advertising on some forums. I plan on making a website for each niche I have and also plan on doing some SEO to get it high on Googles ranking system. I have been motivated by various people to start earning money on the web and I will dedicate a few hours of my day to achieve this. I hope to be earning with your website soon.

PPD Networks

These networks are linked to CPANetworks but usually offer better support and allow blackhat niches. They are usually less strict on applications and can offer different types of tools to improve your niches.

- Sharecash.org (Instant approval)
- Purebits.com (12-24 hours approval)
- Fileice.net (24 hours approval)

The Method

So, what will you need?

A free website, blogger, wordpress site with a content lock on it.

Create a blog post or article about lets say Minecraft and say you are giving away some premium codes and provide a link to your locked webpage/download.

Now go find the software which you posted about earlier on a torrent site such as ThePirateBay.

Then proceed to make a comment with your article/website.

Example:

This torrent is clean but only contains the trial version, I got a serial number at (your site with the content lock) that will activate the trial to full.

Example 2:

This torrent is the latest version but it will not work. I grabbed a working serial number from (your website with the content lock on it) and it worked perfectly.

So now I think you understand the how the method works. The people who download the torrents will always look at the comments before they download to check if it is legitimate.

The user/s will see your comment and they will visit your locked content so that they can have a free serial code.

I made one comment and I didn't even give it upvotes and it got 7 clicks and 4 leads with a 60% CTR .

If you don't have a website you can just use the linklocker feature in your CPA network and send the users to this website:

<http://www.serials.ws/>

And when they complete the obligations, they will go to that site where they can obtain working serial numbers and working keys.

Just make sure you edit the linklockers and the content lockers with something like this:

Please take a 5 second survey to download the code, key, or serial.

Easy right?

Conclusion

Well unfortunately this is the end of the method but I hope you have learned how to use torrents to earn loads of cash. You can use this method for any application and you will get the same result.

If I find any extra techniques, I'll be sure to add them if I plan on updating this method.

Please do not leak this book because if you do, this method will get saturated and I won't be providing any more updates or support.

You can contact me on HackForums for assistance.
